### About BIDU

Baidu was founded in 2000 by Internet pioneer Robin Li, creator of visionary search technology Hyperlink Analysis, with the mission of providing the best way for people to find what they're looking for online. To provide intelligent, relevant search results for the tens of billions of queries that are entered into our search platform every day, they focus on powering the best technology optimized for up-to-date local tastes and preferences. Their deep understanding of Chinese language and culture is central to its success and this kind of knowledge allows us to tailor the search technology for users' needs.

### About DANG

E-Commerce China Dangdang Inc. operates as a business-to-consumer e-commerce company in China. It engages in the sales of Chinese and foreign language books, and music CDs, VCDs, and DVDs through its Website dangdang.com. The company also offers general merchandise products, such as beauty and personal care products; home and lifestyle products; consumer electronics; baby, children, and maternity products; apparel and accessories; and footwear, handbags, and luggage. In addition, it operates the dangdang.com marketplace program, which enables third-party merchants to sell their products alongside products sourced by the company.

### About CCME

CCME, through contractual arrangements with Fujian Fenzhong, an entity majority owned by CCME's former majority shareholder, operates the largest television advertising network on inter-city and airport express buses in China. Through the contractual agreements CCME receives the economic benefits of Fujian Fenzhong's operations. Fujian Fenzhong generates revenue by selling advertisements on its network of television displays installed on inter-city buses and airport express originating in China's most prosperous regions.

### About CHIO

China Bio-Energy Corp., together with its subsidiaries, engages in the production, refinement, and distribution of biodiesel fuel to various oil companies in southern China. The company uses refined animal fats, and crude and refined vegetable oils to produce biodiesel. Its products are primarily used in the compression ignition engines, as well as used as home heating oil. In addition, the company provides acidified oil, which is recovered through distillation of the residue oil from the biodiesel manufacturing process and is used as the feedstock to produce biodiesel. China Bio-Energy Corp. was founded in 2006 and is headquartered in Zhangzhou, China.

### About CRBJF
