About TSL

Trina Solar Limited, an integrated solar-power products manufacturer, engages in the design, development, manufacture, and sale of photovoltaic modules worldwide. The company provides mono- and multi-crystalline silicon ingots, wafers, cells, and related products. It offers monocrystalline PV modules ranging from 185 watts to 210 W in power output; and multicrystalline PV modules ranging from 230 W to 310 W in power output for use in residential, commercial, industrial, and other solar power generation systems. It also designs and produces various PV modules, such as colored modules for architectural applications and larger sized modules for utility grid applications.
