About MGH

Minco Gold Corporation, an exploration stage company, is engaged in the exploration and evaluation of gold-dominant mineral properties and projects in China. The company owns a 51% interest in the Changkeng gold project located to the southwest of Guangzhou. It also owns 100% interests in Longnan projects that has 10 exploration permits located at the southern part of Gansu province. The company was formerly known as Minco Mining & Metals Corporation and changed its name to Minco Gold Corporation in January 2007 to reflect its focus on gold projects.

About SNP

China Petroleum & Chemical Corporation, an energy and chemical company, through its subsidiaries, is engaged in the oil and gas, and chemical operations in the Peoples Republic of China. Its Exploration and Production segment explores and develops oil fields, and produces, and sells crude oil and natural gas. The company's Refining segment processes and purifies crude oil, and manufactures and sells petroleum products. This segment's products comprise gasoline, kerosene, diesel, and chemical feedstock. Its Marketing and Distribution segment owns and operates oil departments and service stations; and distributes and sells refined petroleum products, such as gasoline and diesel through wholesale and retail sales networks.

About GPRC

Guanwei Recycling Corp. manufactures and distributes low density polyethylene (LDPE) and other recycled plastics products primarily in the Peoples Republic of China and internationally. It imports and recycles LDPE plastic scrap material into granular plastic for use in the manufacture of various consumer products. The company's LDPE products are used in the manufacture of chemical and functional fibers, as well as a raw material in the manufacture of shoe soles, insulation materials, fire-proofing and water-proofing materials, and foam.
