About CCGY

China Clean Energy Inc., through its subsidiaries, engages in the development, manufacture, and distribution of biodiesel and specialty chemical products made from renewable resources. The company refines biodiesel from waste vegetable oils and waste grease. It also manufactures and sells various industrial chemical products, including polyamide hot-melt adhesives, printing inks, and alcohol and benzene-soluble polyamide resins, as well as various fatty acids. The company sells its biodiesel products to service stations and power generating plants in China; and specialty chemical products to companies in China, Europe, the United States, and Asia.

About PCCWY

PCCW Limited provides telecommunications and related services in Hong Kong, Macau, Mainland China, and internationally. The company's services include local telephony, local data and broadband, mobile and international telecommunications, and satellite-based and network-based telecommunications services; and outsourcing, consulting, and contact center services. It also provides technical support, electronics communications engineering, and products and solutions, as well as free television, pay television program, and interactive multimedia services; sells advertising in various telephone directories and on the Internet; publishes directories; and sells mobile phones and accessories.

About HOKCY

The Hong Kong and China Gas Company Limited, together with its subsidiaries, engages in the production, distribution, and marketing of gas in Hong Kong and Mainland China. It provides clean fuels, such as liquefied natural gas, methanol, and other gasoline substitutes; and operates vehicle gas refilling stations, landfill gas projects, aviation fuel facilities, piped city-gas projects, upstream and midstream developments, water and wastewater treatment projects, and energy exploration and utilization ventures. The company operates a pipeline network consisting of approximately 3,500 kilometers of gas pipes severing approximately 1.8 million customers.
